EDUCATION

The E-learning platform is set to reach $325 billion by 2025, globally, according to Forbes (2018). As the current pandemic situation has subjected our future and other spheres of our life to doubt, this technology is now becoming a necessity for learners and instructors around the world. Today, almost all schools, colleges, and even universities are leaning on this platform and encouraging their students and employees to adapt to it.

SOCIAL MEDIA

The social media comes in many forms, including blogs, forums, business networks, photo-sharing platforms, social gaming, microblogs and chat apps. Nearly 50% of the world's population uses social media. That's over 3 billion users worldwide. Each person spends an average of 2 hours and 22 minutes on social networks and messaging making it a lucrative industry for many entrepreneurs.

iOS App

TICKETING & RESERVATION

Event ticketing processes have witnessed a paradigm shift from traditional booking of tickets at event venue counters to purchasing tickets in advance from the comfort of one's home. Over the years, booking of tickets through smartphones and tablets has gained immense popularity on account of the perceived ease and flexibility of the procedure and user-friendly, attractive mobile interfaces developed by service providers. The global online event ticketing market size is expected to reach USD 67.99 billion by 2025, exhibiting a 4.8% CAGR during the forecast period.

MATRIMONY

The wedding services industry is worth about $56 billion. As per market reports, the matchmaking and wedding industry has been growing steadily between 25% and 30% every year. About 10 to 12 million marriages are taking place annually in India and with only 6% of the market going online to find a life partner, there is a huge opportunity for matchmaking services.
